Bereila NEOdis lever dispensers

*Ultimate convenience
for dispensing from
pails*

Bereila NEOdis lever dispensers have been developed for quickly and hygienically measuring out portions of mayonnaise, chips sauce, curry sauce, mustard and other sauces from a pail. The most common models are available as standard for 3-, 5- and 10-litre pails.

Bereila NEOdis lever dispensers, including the pump casings, are manufactured from high-quality stainless steel (18/10). The pump casing is always in direct contact with the food product, so this requires the best material. It has a firm, durable structure. It is tightly held in position, and there are no loose nuts and bolts. Bereila NEOdis lever dispensers are of a solid build, but they are light and smooth to operate. They feature an adjustable outflow, and the portion size can be set.

NEOdis lever dispensers are easy to clean. All parts are easily accessible. The pump casing can easily and quickly be assembled, dismantled and cleaned.

NEOdis stands for quality. Bereila gives a 36-month factory warranty, which covers material and structural faults. And of course the NEOdis dispensers demonstrably comply with European regulations on contact with food.

**) The warranty does not cover wearing parts such as rings and springs.*

NEOdis

NEOdis

Typical NEOdis:

- ▶ Stylish design
- ▶ Stainless steel pump casing
- ▶ Firm, durable structure
- ▶ Smooth and easy to operate
